Report No: 2S9
Objections: 2078, 2418
Support: 2417
Subject: SVC7: Large scale service infrastructure
Chapter: 8
Policy: SVC7
Para:
Other:

ISSUES RAISED

Objection

1. Words “where no possible alternative is shown to exist” are unacceptable because underground cable is a possible alternative to overhead and subject to the above wording all lines in these areas would have to be laid underground whatever the cost. – this could be an unreasonable requirement constraining our ability to develop an efficient and economical system of electricity distribution in accordance with our statutory duty (2078).
2. LPA does not determine applications for consent for new overhead lines. Therefore not appropriate to use the wording “will not be permitted” and this should be replaced by “will not be supported”. (2418)

Support

1. Support alterations to criterion 5 (2417)
-

RESPONSE

Objection

1. Wording is intended to emphasise that in some cases there may be no other alternative.
2. Agree. This a factual error.

Support

1. Support noted
-

PROPOSED CHANGES

Amend first paragraph of Policy SVC7 to read:

“The siting of overhead powerlines of 132KV or over, large regionally / nationally important pipelines, and their associated installations will not be supported within or adjoining the following areas unless no possible alternative is shown to exist:”
