

## PolicyTSP2 (2D): New Road Building and Improvements

	OBJECTIVES	Score	COMMENTS
Secure a stable and balanced population whilst improving public health, safety and quality of life	Stabilise and maintain population levels within communities in the plan area	< >	
	Ensure that local facilities and services are available to everyone	< >	
	Ensure that housing needs of the community are met locally and that decent, good quality affordable homes are available to all.	+	Improvements to roads can assist in improving safety to all users
	Increase community participation in decisions regarding the future of development in the planning area	< >	
Effective protection of the environment	Protect and enhance landscapes and townscapes	-	New roads may have adverse impact on landscape
	Protect and enhance biodiversity	--	New roads may have adverse impact on biodiversity
	Protect and enhance features of historical and archaeological importance	--	New roads may have adverse impact on features of historical and archaeological importance
	Ensure that development is not at risk from flooding and does not cause flooding elsewhere.	< >	
Make effective use of existing buildings and infrastructure, previously developed land and natural resources	Reuse existing buildings and previously developed land before greenfield sites	< >	
	Protect and improve ground, surface and marine water quality	< >	
	Ensure that air quality is not adversely affected by development	-	New and improved roads may increase traffic
	Promote recycling, waste minimisation and renewable energy	< >	
	Reduce number of journeys made by private car	-	New and improved roads may encourage car trips but should also take into account needs of public transport, pedestrians, cyclists , horseriders and people with impaired mobility

Promote and facilitate economic regeneration to achieve stable, diverse and self sustaining employment	Encourage economic growth and development	++	Improved communication links will improve economic opportunities
	Encourage diversification of urban and rural economies	++	Improved communication links will improve economic opportunities
	Improve opportunities and access to jobs	++	Improved communication links will improve economic opportunities
	Promote leisure and tourism and increase visitor numbers	++	Improved communication links could potentially increase visitor trips

**Comments / Amendments:**

Policy states that all practical measures are taken to mitigate the harmful effects of such works. Felt that policy essential to achieving economic sustainability.

### PolicyTSP4 (2D): Measures to Improve Public Transport

	OBJECTIVES	Score	COMMENTS
Secure a stable and balanced population whilst improving public health, safety and quality of life	Stabilise and maintain population levels within communities in the plan area	< >	
	Ensure that local facilities and services are available to everyone	++	Seeks improvements to public transport
	Ensure that housing needs of the community are met locally and that decent, good quality affordable homes are available to all.	< >	
	Increase community participation in decisions regarding the future of development in the planning area	< >	
Effective protection of the environment	Protect and enhance landscapes and townscapes	< >	
	Protect and enhance biodiversity	< >	
	Protect and enhance features of historical and archaeological importance	< >	
	Ensure that development is not at risk from flooding and does not cause flooding elsewhere.	< >	
Make effective use of existing buildings and infrastructure, previously developed land and natural resources	Reuse existing buildings and previously developed land before greenfield sites	< >	
	Protect and improve ground, surface and marine water quality	< >	
	Ensure that air quality is not adversely affected by development	< >	
	Promote recycling, waste minimisation and renewable energy	< >	
	Reduce number of journeys made by private car	++	Seeks improvements to public transport which may reduce the number of car trips

Promote and facilitate economic regeneration to achieve stable, diverse and self sustaining employment	Encourage economic growth and development	< >	
	Encourage diversification of urban and rural economies	< >	
	Improve opportunities and access to jobs	< >	
	Promote leisure and tourism and increase visitor numbers	< >
